

Dear Patient,

Whether you're new to our practice or have been a valued patient for years, it's important to be reminded how most dental insurance plans work. I would like to take this opportunity to explain why your insurance may not cover the entire cost of your dental procedure, or why it covers some dental procedures and not others.

Particularly in these days of insurance changes it is vital that you, the patient, are knowledgeable and involved in verifying your dental insurance coverage. Our office spends quite a lot of time researching your benefits, but unfortunately they have been known to change even between visits! It would really help us for you to know about your coverage - any waiting periods and limitations.

We do our very best to estimate your financial responsibility of the dental treatment you are going to have. Regardless of that estimate please be aware that you are ultimately responsible for the dental services provided.
